* Dear Went:

At long last, the pictures are ready and are enclosed along with the corrected Certificate. Other photos taken at the Pentagon and at Fort McNair will be coming later.

Hope you've had a good summer and that your stay at the Cape was super.

The Seminar has made me very busy and things are getting more interesting every day. The 17-18 minute executive version of the video taping is a big hit. I've shown it to Bill Casey and others and plan on the Big Man and his staff soon. We are making a total of three versions--executive, middle management (two and three stars), and one for the National War College and other military schools. I gained a real appreciation for what film editors go through. As you can imagine, lots of pearls fell to the cutting room floor. Ha!

When will you be in Washington next so I can show you the tape? Hopefully it won't be too long.

Best regards to you and Diana and many thanks.

Sincerely,

STAT
